### Denial Management

Inpatient and outpatient denials, post claims audits and recoupments, and appeal letters

### Clinical Documentation Integrity

Assessments and staff competency evaluations and education, DRG downgrade and clinical validation denial management, physician advisor support, targeted case audits

### Analytics and Project Management

Predictive analytics and monthly analytics dashboards

## Who we are

We are the denials prevention champion. We fight for better outcomes and brighter futures for healthcare organizations and the patients and communities they serve.

Working side-by-side with healthcare organizations we take an innovative personalized approach to overturning payor denials and preventing them in the future.

## Why PC3

- Decrease observation rates
- Decrease in denials
- Increase hospital financial performance
- Reducing LOS with post-acute placement denial management
- Payment retention
